EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Kong on 8/19/04.

The application has been amended as follows: Claim 1 has been amended to:

A firearm cartridge holding and storing device within cavity of firearm frame cavity, comprising: a rigid insert body of predetermined size and shape that precisely fits into said firearm frame cavity; a holding means on said insert body comprised of rigid poles and half disks of predetermined sizes to secure one of various sizes of firearm cartridges within said insert body; a latching mechanism comprised of a stopper and rigid stopper support of predetermined sizes to engage a lanyard hole of said firearm frame cavity and latch said insert, with or without a stored ammunition cartridge, within said frame cavity, an unlatching mechanism comprised of a front bottom edge of said insert to which a downward force can be applied to unlatch said stopper from said lanyard hole to facilitate removal of said insert body from said firearm cavity; said insert containing a cavity of predetermined size to expose more of said front bottom edge to allow insertion of a larger object for which to apply force to said front bottom edge; a viewing mechanism comprised of a viewing hole of predetermined size placed in a

predetermined location of said insert body for a human to verify presence of said stored cartridge while said insert is latched into said firearm frame cavity.

The following is an examiner's statement of reasons for allowance. Upon review of the application filed 01 December 2003 and the prior art of record no firearm cartridge holding and storing device with an insert body that fits into a firearm frame cavity exists that has a holding means on said insert body comprising: a rigid poles and half disks of predetermined sizes to secure one of various sizes of firearm cartridges within said insert body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rauch et al (6,389,729) teaches a device comprising: a rigid insert body (10) of predetermined size and shape that precisely fits into a firearm frame cavity (12); a holding means (18,20) on said insert body; a latching mechanism (24) comprising of a stopper and stopper support of predetermined sizes to engage a lanyard hold of said firearm frame cavity and latch said insert; an unlatching mechanisms; and a viewing mechanism (abstract).
